Answering a growing demand for quantitative HR data

Regulators, certifiers and retailers increasingly ask HR data on living wages, health and safety and decent working conditions. This poses a challenge to horticulture professionals to get the right HR data.

How CSRAfrica.com helps
CSRAfrica.com lets floriculture professionals explore cutting edge quantitative insights, tools and case studies on corporate social responsibility (CSR) and HR.

Benefits of using CSRAfrica.com
- Helps to attract and retain talent and increases employee engagement
- Shows business’ commitment to CSR and human rights due diligence
- Supports increasing compliance demand
